## **Spanish IV**

This course will continue to place a greater emphasis on accurate language usage in order to continue to move students to a level beyond simply proficient. Students will continue to practice their oral, listening, reading and writing skills. Students will work to improve their skills in both interpersonal and presentational communication in both speaking and writing. Students are encouraged to be more independent in written and oral expressions. Students will continue to develop critical thinking and problem-solving skills by making connections with their own communities. Student will reflect on the nature of language through comparisons of the language studied and their own. Students will continue to prepare to be active participants in multilingual communities.

*A special focus of the Honors level will be increasing students' exposure to and practice with Advanced Placement type activities.*
